Custom Assemblies

Utilize Helix Medical's dedicated assembly expertise to free up valuable employee time. Combine tubing, stoppers, and gaskets with complementary parts such as barbed tubing connectors, tri-clamp compatible fittings, or luer adapters. Options can include full pre-assembly or simply component inclusion. Please contact our sales department for a quote.

Special Packaging

Whether you want to reduce bag and box waste or eliminate timely cutting of tubing to specified lengths, Helix Medical can accommodate your needs. Consider our array of alternative packaging options, including:

- Spooling (amount on spool determined by tubing outside diameter)
- Bulk coil packaging (multiple standard coils in each box)
- Pre-cut lengths (as short as mere fractions of an inch to many feet, cut to your specified tolerance)

Please contact our sales department for a quote.
