

Highly qualified manufacturing personnel guarantees to the client the final product of the most sophisticated standards

## PRODUCTS

R&D Autoclavable & SIP Fermenters-Bioreactors

Pilot & Industrial Bioreactors - Fermenters

Process Plants

Controllers

Combined CO<sub>2</sub> and O<sub>2</sub> Gas Analysers

Downstream Equipment

Tytan Series

CIP - SIP Systems

## Downstream Equipment

Solaris biotechnologies possess the know how for choosing between the best membrane available on the market (in terms of materials, geometrical configuration and operative parameters), for

concentrating with the best efficiency

avoiding the problem of the gel layer

increasing the efficiency in Diafiltration choosing the most suitable membrane

In summary, optimizing the ratio cost/profit.

The innovation drive of Solaris Biotechnology has created two new series of equipments, based on the technology of Tangential Flow Filtration. These equipments are devoted to the Recovery of biotechnological products in Downstream Operations.
